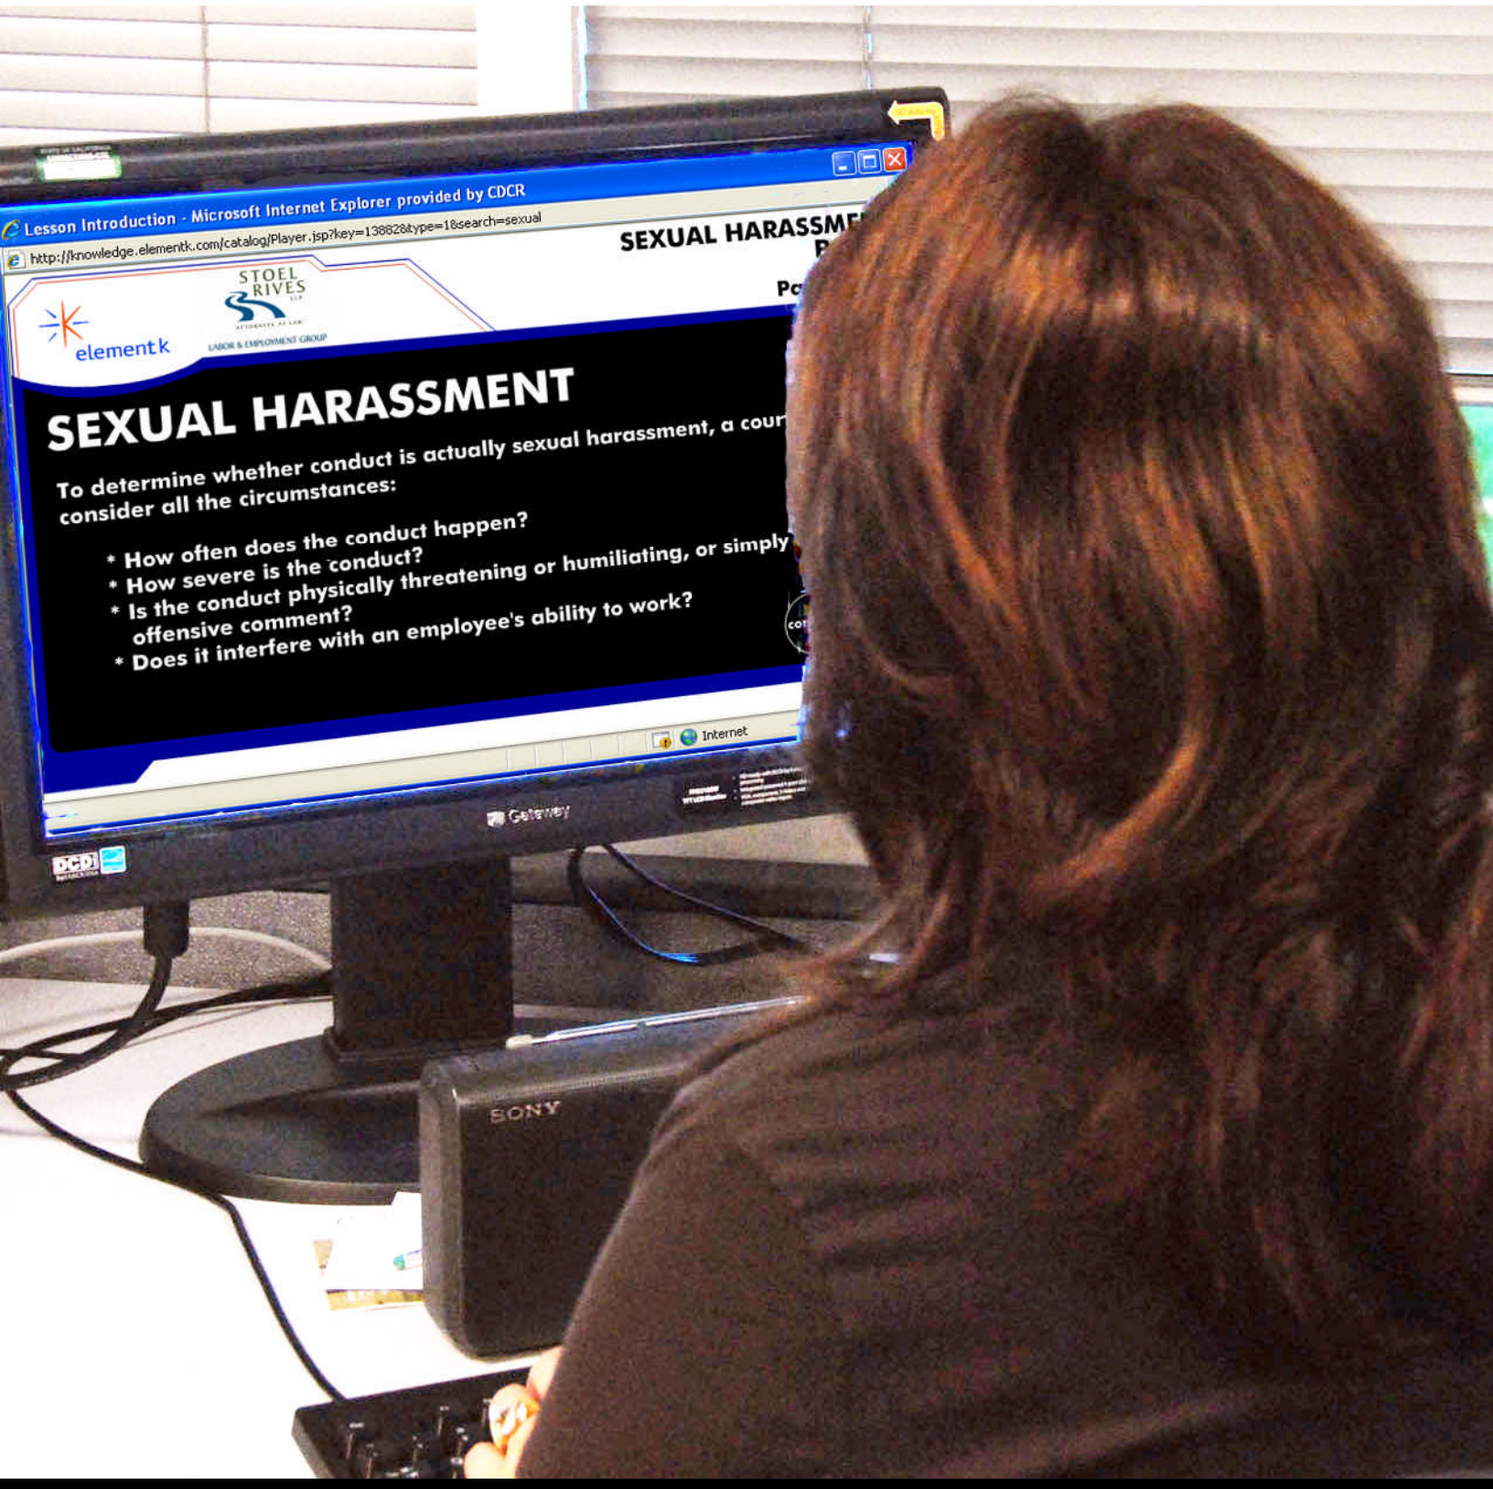
Are you one of the lucky few?



E-LEARNING

The Office of Training and Professional Development's E-Learning Unit will be offering a Sexual Harassment Course in the form of an on-line training for HQ's Managers and Supervisors. This allows more flexibility and can be done any time or place where there is internet access. You will be contacted by email as the program rolls out in October 2007.

"E-Learning...bringing the world of training to you!"
