

ICDTP Bed Availability Report

The California Department of Corrections and Rehabilitation, Office of Offender Services (OS) is funded for 1800 In-Custody Drug Treatment Program (ICDTP) participants daily. The ICDTP bed availability report format was created to manage the population for both community and jail programs. There are two reports that show on a daily basis the number of available ICDTP beds.

ICDTP Referral Status

To all Deputy Commissioners and Valdivia Parole Administrators:

The budget for ICDTP provides funding to support 1800 participants daily, today's participant count is **464**. To properly manage the ICDTP budget, personnel engaged in the ICDTP referral, endorsement and placement process will on occasion be required to limit or suspend endorsement activities until the ICDTP program census decreases to a census level that aligns with the budget allowance for participants. To facilitate informed decisions, OS will provide all relevant personnel with the "ICDTP Referral Status" form on a daily basis. The ICDTP Referral Status form indicates that new program referrals are or are not being accepted. This information will enable you to make fully informed Probable Cause Hearing (PCH) decisions on the placement of individuals into the ICDTP.

NOTE: OS will allow all participants endorsed before the jail cancellation notification to continue through the treatment process in ICDTP Program II Community. OS will maintain continuous communication and collaboration with our partners. Through efficient and effective management of the FY 2011/2012 budget the ICDTP population will be maintained. Please feel free to contact your Program Manager with questions or concerns.
