

Monthly Report of Offenders Housed in CDC Settings
Who Need Their DNA Collected
as of March 31, 2006

OFFENDER GROUP	OFFENDERS WHOSE DNA NEEDS COLLECTING	TOTAL CDC INMATE POPULATION
MALES	5,616	158,829
FEMALES	676	11,646
	=====	=====
	6,292	170,475

This month, all DNA specimens, samples, and print impressions that were collected were sent to DOJ within 30 days of collection.

This report is produced pursuant to legislation mandating DNA collection(blood/saliva sample and palm print), testing and reporting for CDC offenders.

California Proposition 69, approved by voters November 2004, amends Section 295 of California Penal Code to require DNA collection, testing and reporting for CDC offenders.
