

Monthly Report of Offenders Housed in CDC Settings
Who Need Their DNA Collected
as of March 31, 2007

OFFENDER GROUP	OFFENDERS WHOSE DNA NEEDS COLLECTING	TOTAL CDC INMATE POPULATION
MALES	4,426	160,502
FEMALES	386	11,782
	=====	=====
	4,812	172,284

This month, all DNA specimens, samples, and print impressions that were collected were sent to DOJ within 30 days of collection.

This report is produced pursuant to legislation mandating DNA collection(blood/saliva sample and palm print), testing and reporting for CDC offenders.

California Proposition 69, approved by voters November 2004, amends Section 295 of California Penal Code to require DNA collection, testing and reporting for CDC offenders.
