

Monthly Report of Offenders Housed in CDC Settings  
Who Need Their DNA Collected  
as of September 30, 2007

OFFENDER GROUP	OFFENDERS WHOSE DNA NEEDS COLLECTING	TOTAL CDC INMATE POPULATION
MALES	3,577	160,954
FEMALES	335	11,691
	=====	=====
	3,912	172,645

This month, all DNA specimens, samples, and print impressions that were collected were sent to DOJ within 30 days of collection.

This report is produced pursuant to legislation mandating DNA collection (blood/saliva sample and palm print), testing and reporting for CDC offenders.

California Proposition 69, approved by voters November 2004, amends Section 295 of California Penal Code to require DNA collection, testing and reporting for CDC offenders.
