Audit Findings

Audit Narrative

The auditor's description of the audit methodology should include a detailed description of the following processes during the pre-onsite audit, onsite audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor's process for the site review.

PREA America LLC was retained on August 7, 2017 to perform the Ventura Youth Correctional Facility (VYCF) PREA Audit by California Contract Manager Richard Zeunges. CDCR DJJ PREA Analyst Rosemary Carrillo coordinated on behalf of PREA Coordinator Dr. Karen Heintschel to schedule the audit. Notices of the on-site audit went up by August 14. The Pre-Audit Questionnaire and supporting documentation were received September 11. The on-site audit was conducted September 25, 2017. Some important additional documentation was provided during the onsite audit and in the weeks that followed.

On September 25, PREA America Auditor Will Weir and Project Manager Tom Kovach met with PREA Coordinator Dr. Heintschel, Superintendent Maria Harper, and a number of facility staff and administrators. The audit team had been provided resident and staff rosters, and random selections were made for interviews. Some specialized interviews had been scheduled in advance. VYCF PREA Compliance Manager Captain Jennie Dillon gave the audit team a tour of the facility and grounds. 24 youth were randomly selected, including youth from each living unit and those with risk factors. 12 random staff were interviewed, as well as 12 specialized staff. 4 administrators, including the Director's designee, were also interviewed. An administrator from Safe Harbor was interviewed by phone. An exit conference was conducted by the audit team at the conclusion of the on-site audit. The conference was well-attended with most facility departments being represented. Items that might possibly be on a compliance plan were discussed, as well as the strengths of the agency and facility, and the improvements that have been made since the last audit. Also, cameras are certainly highly recommended, but not required, for improving the safety of residents and staff at the facility.

During the 30 days after the on-site audit, additional documentation was reviewed by the audit team. The areas requiring additional proof of compliance became clear. The Interim Report was issued 11-01-2017 triggering a 180-day Corrective Action Period (CAP). The Interim Report indicated the facility and agency had not yet shown full compliance with 10 of the 43 PREA Standards: § 115.315, 317, 334, 342, 351, 371, 372, 387, 388, and 389. A summary of these 10 areas is provided below under "Summary of Corrective Action". A Corrective Action Plan (also referred to as a CAP) was developed. The agency and facility worked to implement corrective actions and succeeded in all areas but two. PREA rules do not allow for more than

180 days past the issuance of the Interim Report to take corrective actions. So, two areas (§ 115.317 Hiring and promotion decisions, and 115.342 Placement of residents in housing, bed, program, education, and work assignments) remain in which the agency still needs to demonstrate full compliance.

§ 115.317, Subsection C, part 2, requires the agency to “Consult any child abuse registry maintained by the State or locality in which the employee would work”. California’s Department of Justice (CDOJ) maintains this abuse registry. In order for CDOJ to systemically and reliably consult the database regarding all DJJ employees and contractors who might have contact with residents, the contractual relationship between DJJ and CDOJ has to be modified and the changes implemented. Once this process is completed, it will need to be verified that the improved system is working. The 180-day clock ran out before these modifications could be fully implemented and verified.

Likewise, corrections that would have resolved the remaining compliance issues from § 115.342, also ran out the clock. As an agency, a strategic decision has been made to develop a comprehensive policy regarding transgender residents. The development of this policy includes a deliberative process to incorporate input from experts and community members. Once the policy has been completed and fully approved, staff will need to be trained as the new policy directives are implemented. As it stands currently, the agency appears to follow the broad sections of § 115.342, utilizing available information “with the goal of keeping all residents safe and free from sexual abuse.” The remaining areas deal with the specifics. For example, it remains to be seen exactly how Subsection “E” will be practiced, and who will be responsible for showing compliance. § 115.342(e) states, “Placement and programming assignments for each transgender or intersex resident shall be reassessed at least twice each year to review any threats to safety experienced by the resident.”

Facility Characteristics

The auditor's description of the audited facility should include details about the facility type, demographics and size of the inmate, resident or detainee population, numbers and type of staff positions, configuration and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation. The auditor should describe how these details are relevant to PREA implementation and compliance.

The Ventura Youth Correctional Facility is located in Camarillo, in Ventura County, California. This facility is comprised of 15 buildings. There are 8 living units with individual rooms. Youth receive instruction in basic skills, high school courses, GED preparation, and vocational training. Special education services are available. Qualified youths have an opportunity to earn college credits. Special programs available for youths include a substance abuse program and other counseling programs.

Summary of Audit Findings

*The summary should include the number of standards exceeded, number of standards met, and number of standards not met, **along with a list of each of the standards in each category.** If relevant, provide a summarized description of the corrective action plan, including deficiencies observed, recommendations made, actions taken by the agency, relevant timelines, and methods used by the auditor to reassess compliance.*

Auditor Note: No standard should be found to be "Not Applicable" or "NA". A compliance determination must be made for each standard.

Number of Standards Exceeded: 1

§ 115.381 Medical and mental health screenings; history of sexual abuse.
The facility demonstrated policies and practices that exceed the minimum PREA Standard on medical and mental health screenings.

Number of Standards Met: 40

The agency and facility demonstrated at least full compliance with 33 of the 43 PREA Standards for Juvenile Facilities. (This includes the exceeded standard mentioned above.)

Number of Standards Not Met: 2

§ 115.317 and 342. These are itemized below, along with the other 8 standards of the CAP.

Summary of Corrective Action (if any)

As of the 11-01-2017 Interim Report, VYCF had not verified compliance with the following subsections of the PREA Juvenile Facility Standards. Each quote from the Standards is followed by an issue (*in italics*) that was to be addressed in the Corrective Action Plan (CAP). Only items 2 and 4 were not resolved during the Corrective Action Period.

CAP Item 1: § 115.315 Limits to cross-gender viewing and searches.

- (b) The agency shall not conduct cross-gender pat-down searches except in exigent circumstances.
- (c) The facility shall document and justify all cross-gender strip searches, cross-gender visual body cavity searches, and cross-gender pat-down searches.

It appeared at the time of the writing of the Interim Report, that policy and practice regarding cross-gender pat-down searches of males were being updated. Cross-gender pat-down searches were documented on 03-22-2017 that were completed because male staff were not available, not due to exigent circumstances.

Resolved: *Additional information was provided to the audit team revealing that the 03-22-2017 documentation was not regarding VYCF but another facility. Also, verification was provided that cross-gender pat searches (absent exigent circumstances) have not been practiced at the facility in more than 12 months. Superintendent Maria Harper has issued directives to assure there is no confusion on this matter.*

CAP Item 2: § 115.317 Hiring and promotion decisions.

- (c) Before hiring new employees who may have contact with residents, the agency shall:
 - (2) Consult any child abuse registry maintained by the State or locality in which the employee would work; and
 - (d) The agency shall also perform a criminal background records check, and consult applicable child abuse registries, before enlisting the services of any contractor who may have contact with residents.

The agency has verified that criminal background checks are being done, but has not verified that the Child Abuse Central Index operated by the State of California Department of Justice Office has been consulted prior to an employee or contractor having contact with residents.

CAP Item 3: § 115.334 Specialized training: Investigations.

- (a) In addition to the general training provided to all employees pursuant to § 115.331, the agency shall ensure that, to the extent the agency itself conducts sexual abuse investigations, its investigators have received training in conducting such investigations in confinement settings.
- (b) Specialized training shall include techniques for interviewing juvenile sexual abuse victims, proper use of Miranda and Garrity warnings, sexual abuse evidence collection in confinement settings, and the criteria and evidence required to substantiate a case for administrative action or prosecution referral.
- (c) The agency shall maintain documentation that agency investigators have completed the required specialized training in conducting sexual abuse investigations.

The Interim Report indicated that the audit team had not yet been provided with documentation that all sexual abuse investigators have received this training.

Resolved: *Training verification has been provided.*

CAP Item 4: § 115.342 Placement of residents in housing, bed, program, education, and work assignments.

(e) Placement and programming assignments for each transgender or intersex resident shall be reassessed at least twice each year to review any threats to safety experienced by the resident.

The auditor reviewed draft policy regarding transgender residents and could not find where subsection (e), listed above, is addressed. Also, the definitions in the proposed policy must be consistent with the agency PREA policy definitions. To be counted toward compliance with this standard, the policy must be approved and implemented into practice with training, which is in the process of being scheduled.

CAP Item 5: § 115.351 Resident reporting.

(b) The agency shall also provide at least one way for residents to report abuse or harassment to a public or private entity or office that is not part of the agency and that is able to receive and immediately forward resident reports of sexual abuse and sexual harassment to agency officials, allowing the resident to remain anonymous upon request. Residents detained solely for civil immigration purposes shall be provided information on how to contact relevant consular officials and relevant officials at the Department of Homeland Security.

The Interim Report indicated that residents are provided numerous numbers they can use to make reports. The auditor could not determine, by looking at the postings and reading the Handbook and other materials everyone gets, which number(s) are for the “public or private entity or office that is not part of the agency”. If a resident wanted to choose the outside agency reporting option, he or she should be able to figure out which number to call. Interviews indicated staff and residents did not know which numbers were for outside entities.

Resolved: *Some posters have been replaced and others have been adapted, making it clear which line is the outside reporting line.*

CAP Item 6: § 115.371 Criminal and administrative agency investigations.

(b) Where sexual abuse is alleged, the agency shall use investigators who have received special training in sexual abuse investigations involving juvenile victims pursuant to § 115.334.

(c) Investigators shall gather and preserve direct and circumstantial evidence, including any available physical and DNA evidence and any available electronic monitoring data; shall interview alleged victims, suspected perpetrators, and witnesses; and shall review prior complaints and reports of sexual abuse involving the suspected perpetrator.

(d) The agency shall not terminate an investigation solely because the source of the allegation recants the allegation.

(e) When the quality of evidence appears to support criminal prosecution, the agency shall conduct compelled interviews only after consulting with prosecutors as to whether compelled interviews may be an obstacle for subsequent criminal prosecution.

(f) The credibility of an alleged victim, suspect, or witness shall be assessed on an individual basis and shall not be determined by the person’s status as resident or staff. No agency shall require a resident who alleges sexual abuse to submit to a polygraph examination or other truth-telling device as a condition for proceeding with the investigation of such an allegation.

(k) The departure of the alleged abuser or victim from the employment or control of the facility or agency shall not provide a basis for terminating an investigation.

(m) When outside agencies investigate sexual abuse, the facility shall cooperate with outside investigators and shall endeavor to remain informed about the progress of the investigation.

The Interim Report indicated that policy, protocol, and training that drives investigative activity and describes the minimum requirements, and rules, regarding such activity, had not yet been provided.

Resolved: *Investigative policy and training has been provided.*

CAP Item 7: § 115.372 Evidentiary standard for administrative investigations.
The agency shall impose no standard higher than a preponderance of the evidence in determining whether allegations of sexual abuse or sexual harassment are substantiated.

The auditor could not initially locate a section of policy that established evidentiary standards.
Resolved: Policy has been provided consistent with this standard.

CAP Item 8: § 115.387 Data collection.
(a) The agency shall collect accurate, uniform data for every allegation of sexual abuse at facilities under its direct control using a standardized instrument and set of definitions.

Although data has been collected for many years, the audit interviews indicated, and documentation verified, that there had not been a uniform tracking or logging system in place at VYCF that collected all the information needed by the agency.
Resolved: The facility and agency worked together to implement an improved tracking system which is being adopted agency wide.

CAP Item 9: § 115.388 Data review for corrective action.
CAP Item 10: § 115.389 Data storage, publication, and destruction.

Both these standards require publication of an Annual Report that was pending at the time of the audit.
Resolved: The Annual Report has been issued and published.

VYCF has a written policy mandating zero tolerance toward all forms of sexual abuse and sexual harassment, and a policy outlining how it will implement the agency's approach to preventing, detecting, and responding to sexual abuse and sexual harassment. The policy includes definitions of prohibited behaviors regarding sexual abuse and sexual harassment, and it includes sanctions for those found to have participated in prohibited behaviors. The policy includes a description of agency strategies and responses to reduce and prevent sexual abuse and sexual harassment of residents. The agency employs and designates an upper-level, agency-wide PREA coordinator, which was Dr. Karen Heintschel at the time of the on-site audit. She was interviewed and stated she had sufficient time and authority to develop, implement, and oversee agency efforts to comply with the PREA standards. Dr. Jonathan J. Yip took over as the designated agency PREA Coordinator in January and oversaw much of the corrective action process. Much work, throughout the whole audit process, was organized and completed by the agency PREA Analyst, Rosemary Carrillo. The PREA Compliance Manager at the facility is Jennie Dillon. Ms. Dillon and Superintendent Harper appear to be highly respected at the facility, and throughout the agency, for their innovation and leadership in moving forward with PREA directives. According to interviews with residents and staff, there is a firm commitment to the zero-tolerance policy and the safety of the residents.

VYCF develops, documents, and makes its best efforts to comply with a staffing plan that provides for adequate levels of staffing, and, where applicable, video monitoring, to protect residents against abuse. In calculating adequate staffing levels and determining the need for video monitoring, it takes into consideration: Generally accepted juvenile detention and residential practices; Any judicial findings of inadequacy; Any findings of inadequacy from Federal investigative agencies; Any findings of inadequacy from internal or external oversight bodies; All components of the facility's physical plant (including "blind spots" or areas where staff or residents may be isolated); The composition of the resident population; The number and placement of supervisory staff; Institution programs occurring on a particular shift; Any applicable State or local laws, regulations, or standards; The prevalence of substantiated and unsubstantiated incidents of sexual abuse; and Any other relevant factors. At least once every year the agency, in collaboration with the PREA Coordinator, reviews the staffing plan to see whether adjustments are needed to: the staffing plan; prevailing staffing patterns; the deployment of monitoring technology; or the allocation of agency or facility resources to commit to the staffing plan to ensure compliance with the staffing plan. The facility requires that intermediate-level or higher-level staff conduct unannounced rounds to identify and deter staff sexual abuse and sexual harassment. VYCF documents unannounced rounds on all shifts with a prohibition of staff alerting other staff of the conduct of the rounds.

- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Agency policy prohibits cross-gender strip searches or cross-gender visual body cavity searches except in exigent circumstances which must be justified and documented, or when performed by medical practitioners. However, the agency policy provided to the auditor with Pre-Audit documentation did not yet prohibit all cross-gender pat-down searches, except in exigent circumstances. Policies enable residents to shower, perform bodily functions, and change clothing without nonmedical staff of the opposite-gender viewing their breasts, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine cell checks. Policies and procedures that require staff of the opposite gender to announce their presence when entering a resident housing unit appears to be followed, according to interviews. Regarding agency policy being updated that allowed for cross-gender pat-down searches, verification was provided that cross-gender pat searches (absent exigent circumstances) have not been practiced at the facility in more than 12 months. Superintendent Maria Harper has issued directives to assure there is no confusion on this matter.

Auditor Overall Compliance Determination

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The agency has established procedures to provide disabled residents, and residents with limited English proficiency, equal opportunity to participate in or benefit from all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment. Agency policy prohibits use of resident interpreters, resident readers, or other types of resident assistants, except in limited circumstances where an extended delay in obtaining an effective interpreter could compromise the resident's safety, the performance of first-response duties under § 115.364, or the investigation of the resident's allegations. In the past 12 months, according to documentation provided to the audit team, there have been no instances where resident interpreters, readers, or other types of resident assistants have been used and it was not the case that an extended delay in obtaining another interpreter could

compromise the resident's safety, the performance of first-response duties under § 115.364, or the investigation of the resident's allegations. Staff and residents indicate staff sometimes go the extra mile to assist anyone to understand what they need to understand to be safe and exercise their rights. Staff interviews, and policy reviews indicate these efforts have been required and practiced in the agency culture for a number of years.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The agency policy prohibits hiring or promoting anyone who may have contact with residents, and prohibits enlisting the services of any contractor who may have contact with residents, who: Has engaged in sexual abuse in a prison, jail, lockup, community confinement facility, juvenile facility, or other institution (as defined in 42 U.S.C. 1997); Has been convicted of engaging or attempting to engage in sexual activity in the community facilitated by force, overt or implied threats of force, or coercion, or if the victim did not consent or was unable to consent or refuse; or Has been civilly or administratively adjudicated to have engaged in the activity described in paragraph (a)(2) of this section. The Agency policy requires the consideration of any incidents of sexual harassment in determining whether to hire or promote anyone, or to enlist the services of any contractor, who may have contact with residents. DJJ policy requires that before it hires any new employees who may have contact with residents, it conducts criminal background record checks, but the auditor could not find any requirement to consult any child abuse registry maintained by the State or locality in which the employee would work. The agency, consistent with Federal, State, and local law, makes its best efforts to contact all prior institutional employers for information on substantiated allegations of sexual abuse or any resignation during a pending investigation of an allegation of sexual abuse. The Agency policy requires that either criminal background records checks be conducted at least every five years of current employees and contractors who may have contact with residents, or that a system is in place for otherwise capturing such information for current employees. They have a system in place that gives them nearly instant notification of some types of arrests/convictions for their employees. The Agency policy states that material omissions regarding such misconduct, or the provision of materially false information, shall be grounds for termination. The agency provides information on substantiated allegations of sexual abuse or sexual harassment involving a former employee upon receiving a request from an institutional employer for whom such employee has applied to work. The audit team believes the agency is in compliance with this standard except for being able to verify that they consult

the Child Abuse Index maintained by the State of California Department of Justice regarding potential employees and contractors who might have contact with residents.

The agency/facility is responsible for conducting administrative investigations, while the Ventura County Sheriff's Department is responsible for criminal sexual abuse investigations (including resident-on-resident sexual abuse or staff sexual misconduct). Interviews, some documentation, and policy provided indicate that when conducting a sexual abuse investigation, investigators follow a uniform evidence protocol that is developmentally appropriate for youth. These interviews also indicate that all residents who experience sexual abuse have access to off-site forensic medical examinations. These examinations are offered without financial cost to the victim and are conducted by Sexual Assault Forensic Examiners (SAFEs) or Sexual Assault Nurse Examiners (SANEs) through Safe Harbor. When SAFEs or SANEs are not available, a qualified medical practitioner performs forensic medical examinations. The facility documents efforts to provide SAFEs or SANEs. No forensic medical exams have been performed during the past 12 months because there were no allegations indicating an exam. The facility attempts to make a victim advocate from a rape crisis center available to the victim, in person or by other means, and these efforts are to be documented, according to interviews and policy reviewed.

The agency documents all referrals of allegations of sexual abuse or sexual harassment for investigation, and the auditor reviewed this documentation.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. VYCF residents receive information at the time of intake about the zero-tolerance policy and how to report incidents or suspicions of sexual abuse or sexual harassment. The facility provides resident education in formats accessible to all residents, including those who are limited English proficient, deaf, visually impaired, or otherwise disabled, as well as to residents who have limited reading skills. All residents admitted during the past 12 months have received this information in an age-appropriate fashion, according to interviews and information provided. Many have received the information at previous placements as well. The agency maintains documentation of resident participation in PREA education sessions and samples of resident signatures and logs provided to the auditor. The agency

ensures that key information about the agency's PREA policies is continuously and readily available or visible through posters, resident handbooks, or other written formats, as verified in interviews of staff and residents, and observed by the audit team during the facility tour.

CDCR DJJ typically does do its own administrative, but not criminal, investigations. Sometimes the term “inquiry” is used to indicate a fact-finding process, but if there is sexual abuse or harassment alleged involving an alleged resident victim, CDCR policy clearly requires it be immediately investigated, even if there is also an “inquiry” also being conducted. If a staff member is accused of wrongdoing, the Office of Internal Affairs (OIA) will investigate. During the pre-audit process and on-site audit, it was unclear if these investigators have had sexual abuse investigator training. During the CAP the agency provided the audit team with policy, training curriculum, and verification that their investigators have completed the training.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does

not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

VYCF has a policy that requires screening (upon admission to the facility or transfer from another facility) for risk of sexual abuse victimization or sexual abusiveness toward other residents. The policy requires that residents be screened for risk of sexual victimization or risk of sexually abusing other residents within 48 hours of their intake. PREA Standards require this be done within 72 hours. Such assessments are conducted using an objective screening instrument. They attempt to ascertain information about: (1) Prior sexual victimization or abusiveness; (2) Any gender-nonconforming appearance or manner or identification as lesbian, gay, bisexual, transgender, or intersex, and whether the resident may therefore be vulnerable to sexual abuse; (3) Current charges and offense history; (4) Age; (5) Level of emotional and cognitive development; (6) Physical size and stature; (7) Mental illness or mental disabilities; (8) Intellectual or developmental disabilities; (9) Physical disabilities; (10) The resident's own perception of vulnerability; and (11) Any other specific information about individual residents that may indicate heightened needs for supervision, additional safety precautions, or separation from certain other residents. This information is ascertained through conversations with the resident during the intake process and medical and mental health screenings; during classification assessments; and by reviewing court records, case files, facility behavioral records, and other relevant documentation from the resident's files. Controls are in place on the dissemination within the facility of responses to questions asked pursuant to this standard to ensure that sensitive information is not exploited to the resident's detriment by staff or other residents. Interviews indicate residents are screened and the facility is reassessing regularly, and, when a resident is high-risk, and when new information regarding risk factors comes to their attention.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

VYCF uses information from the risk screening required by §115.341 to inform housing, bed, work, education, and program assignments. The facility prohibits placing lesbian, gay, bisexual, transgender, or intersex residents in housing, bed, or other assignments solely on the basis of such identification or status. The facility prohibits considering lesbian, gay, bisexual, transgender, or intersex identification or status as an indicator of likelihood of being sexually abusive. The facility makes housing and program assignments for transgender or intersex residents in the facility on a case-by-case basis. The facility uses all information obtained pursuant to § 115.341 and subsequently to make housing, bed, program, education, and work assignments for residents with the goal of keeping all residents safe and free from sexual abuse. Residents may be isolated from others only as a last resort when less-restrictive measures are inadequate to keep them and other residents safe, and then only until an alternative means of keeping all residents safe can be arranged. A transgender or intersex resident’s own view with respect to his or her own safety is given serious consideration. Transgender and intersex residents are given the opportunity to shower separately from other residents. However, the auditor could not find verification that placement and programming assignments for each transgender or intersex resident is being reassessed at least twice each year to review any threats to safety experienced by the resident. The Transgender Youth policy is still being developed and is in draft form.

Auditor Overall Compliance Determination

- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The agency has established procedures allowing for multiple internal ways for residents to report privately to agency officials about sexual abuse or sexual harassment, retaliation by other residents or staff for reporting sexual abuse and sexual harassment, and staff neglect or violation of responsibilities that may have contributed to such incidents. At the time of the on-site audit it was not clear to residents

or staff which number to call to report abuse or harassment to a public or private entity or office that is not part of the facility. There are no residents detained solely for civil immigration purposes. The agency has a policy mandating that staff accept reports of sexual abuse and sexual harassment made verbally, in writing, anonymously, and from third parties. Staff are required to document verbal reports by the end of their shifts. The facility does provide residents with access to tools to make written reports of sexual abuse or sexual harassment, retaliation by other residents or staff for reporting sexual abuse and sexual harassment, and staff neglect or violation of responsibilities that may have contributed to such incidents. The agency has also established procedures for staff to privately report sexual abuse and sexual harassment of residents. Residents interviewed indicate they know how to report sexual abuse and harassment but would not know which number is for an outside entity. During the CAP new notices were posted, and some of the old postings were adapted, to make it clear how to report to the outside entity.

Standard 115.352: Exhaustion of administrative remedies

All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

115.352 (a)

- Is the agency exempt from this standard? NOTE: The agency is exempt ONLY if it does not have administrative procedures to address resident grievances regarding sexual abuse. This does not mean the agency is exempt simply because a resident does not have to or is not ordinarily expected to submit a grievance to report sexual abuse. This means that as a matter of explicit policy, the agency does not have an administrative remedies process to address sexual abuse. Yes No NA

115.352 (b)

- Does the agency permit residents to submit a grievance regarding an allegation of sexual abuse without any type of time limits? (The agency may apply otherwise-applicable time limits to any portion of a grievance that does not allege an incident of sexual abuse.) (N/A if agency is exempt from this standard.) Yes No NA
- Does the agency always refrain from requiring a resident to use any informal grievance process, or to otherwise attempt to resolve with staff, an alleged incident of sexual abuse? (N/A if agency is exempt from this standard.) Yes No NA

115.352 (c)

- Does the agency ensure that: A resident who alleges sexual abuse may submit a grievance without submitting it to a staff member who is the subject of the complaint? (N/A if agency is exempt from this standard.) Yes No NA
- Does the agency ensure that: Such grievance is not referred to a staff member who is the subject of the complaint? (N/A if agency is exempt from this standard.) Yes No NA

115.352 (d)

- Does the agency issue a final agency decision on the merits of any portion of a grievance alleging sexual abuse within 90 days of the initial filing of the grievance? (Computation of the 90-day time period does not include time consumed by residents in preparing any administrative appeal.) (N/A if agency is exempt from this standard.) Yes No NA
- If the agency determines that the 90-day timeframe is insufficient to make an appropriate decision and claims an extension of time [the maximum allowable extension of time to respond is 70 days per 115.352(d)(3)], does the agency notify the resident in writing of any such extension and provide a date by which a decision will be made? (N/A if agency is exempt from this standard.) Yes No NA
- At any level of the administrative process, including the final level, if the resident does not receive a response within the time allotted for reply, including any properly noticed extension, may a resident consider the absence of a response to be a denial at that level? (N/A if agency is exempt from this standard.) Yes No NA

115.352 (e)

- Are third parties, including fellow residents, staff members, family members, attorneys, and outside advocates, permitted to assist residents in filing requests for administrative remedies relating to allegations of sexual abuse? (N/A if agency is exempt from this standard.) Yes No NA
- Are those third parties also permitted to file such requests on behalf of residents? (If a third party, other than a parent or legal guardian, files such a request on behalf of a resident, the facility may require as a condition of processing the request that the alleged victim agree to have the request filed on his or her behalf, and may also require the alleged victim to personally pursue any subsequent steps in the administrative remedy process.) (N/A if agency is exempt from this standard.) Yes No NA
- If the resident declines to have the request processed on his or her behalf, does the agency document the resident's decision? (N/A if agency is exempt from this standard.) Yes No NA

115.352 (f)

- Has the agency established procedures for the filing of an emergency grievance alleging that a resident is subject to a substantial risk of imminent sexual abuse? (N/A if agency is exempt from this standard.) Yes No NA

- After receiving an emergency grievance alleging a resident is subject to a substantial risk of imminent sexual abuse, does the agency immediately forward the grievance (or any portion thereof that alleges the substantial risk of imminent sexual abuse) to a level of review at which immediate corrective action may be taken? (N/A if agency is exempt from this standard.)
 Yes No NA
- After receiving an emergency grievance described above, does the agency provide an initial response within 48 hours? (N/A if agency is exempt from this standard.) Yes No NA

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

CDCR DJJ has an administrative procedure for dealing with resident grievances regarding sexual abuse, and this procedure is followed at VYCF. There is no time limit for a resident to submit a

grievance regarding an allegation of sexual abuse, and the resident is not required to use an informal grievance process, or otherwise to attempt to resolve with staff, an alleged incident of sexual abuse. The facility's policy allows a resident to submit a grievance alleging sexual abuse without submitting it to the staff member who is the subject of the complaint. These grievances are assigned to someone at the level of Deputy Superintendent or higher, and the assigned administrator is prohibited from having a conflict of interest. The facility has policy that requires that a decision on the merits of any grievance or portion of a grievance alleging sexual abuse be made within 90 days of the filing of the grievance. The facility notifies the resident in writing when the agency files for an extension, including notice of the date by which a decision will be made. The facility policy permits third parties, including fellow residents, staff members, family members, attorneys, and outside advocates, to assist residents in filing requests for administrative remedies relating to allegations of sexual abuse, and to file such requests on behalf of residents. Policy requires that if the resident declines to have third-party assistance in filing a grievance alleging sexual abuse, the agency documents the resident's decision to decline. While residents can assist, one resident cannot file an appeal on behalf of another. Policy allows legal guardians of residents to file a grievance, including appeals, on behalf of such resident, regardless of whether or not the resident agrees to having the grievance filed on their behalf. The agency has a policy for filing an emergency grievance alleging that a resident is subject to a substantial risk of imminent sexual abuse. These emergency grievances require an initial response within 48 hours and a final agency decision within 5 days. The agency has a policy that limits its ability to discipline a resident for filing a grievance alleging sexual abuse to occasions where the agency demonstrates that the resident filed the grievance in bad faith.

115.353 (b)

The facility has a policy that residents who allege to have suffered sexual abuse may only be placed in isolation as a last resort, if less restrictive measures are inadequate to keep them and other residents safe, and only until an alternative means of keeping all residents safe can be arranged. The facility policy requires that residents who are placed in isolation because they allege to have suffered sexual abuse have access to legally required educational programming, special education services, and daily large-muscle exercise. Although this is covered in policy, interviews strongly indicate isolation is very unlikely to occur at VYCF, since the residents have single-occupancy rooms, and there are other effective tools available to protect residents and manage problems. In the past 12 months, no residents who have alleged sexual abuse have been placed in isolation or segregated for their protection, according to information provided.

Despite attempts during the pre-audit process, and in the 30 days after the on-site audit, the auditor could not locate CDCR policy or procedure that indicates the evidentiary standard for administrative investigations. The Pre-Audit Questionnaire did not contain a policy reference for this standard. The PREA Coordinator's office was notified by email and by phone regarding the auditor's difficulty finding policy references. However, this was cleared up during the CAP. During the CAP, interviews with administrators and a review of policy and a review of investigations completed, verified that the agency imposes a standard of a preponderance of the evidence when determining whether allegations of sexual abuse or sexual harassment are substantiated.

CDCR has a policy requiring that any resident who makes an allegation that he or she suffered sexual abuse in the facility is notified as to whether the allegation has been determined to be substantiated, unsubstantiated, or unfounded following an investigation, and that the notification is documented. Following a resident's allegation that a staff member has committed sexual abuse against the resident, the facility subsequently informs the resident (unless the agency/facility has determined that the allegation is unfounded) whenever the staff member is no longer posted within the resident's unit; the staff member is no longer employed at the facility; the agency learns that the staff member has been indicted on a charge related to sexual abuse within the facility; or the agency learns that the staff member has been convicted on a charge related to sexual abuse within the facility. Following a resident's allegation that he or she has been sexually abused by another resident, they will inform the alleged victim when they learn that the alleged abuser has been indicted on a charge related to sexual abuse within the facility or if they learn that the alleged abuser has been convicted on a charge related to sexual abuse within the facility. Compliance with this standard was verified through a review of policy, a review of investigations, by conducting interviews with staff who make these notifications, and by interviewing residents who have made complaints.

CDCR staff are subject to disciplinary sanctions up to and including termination for violating agency sexual abuse or sexual harassment policies. Disciplinary sanctions for violations of agency policies relating to sexual abuse or sexual harassment (other than actually engaging in sexual abuse) are commensurate with the nature and circumstances of the acts committed, the staff member's disciplinary history, and the sanctions imposed for comparable offenses by other staff with similar histories. All terminations for violations of agency sexual abuse or sexual harassment policies, or resignations by staff who would have been terminated if not for their resignation, are reported to law enforcement agencies, unless the activity was clearly not criminal, and to any relevant licensing bodies. A review of applicable policy, a review of investigations, and interviews conducted, indicate compliance with this standard.

According to the written policy provided for the audit team to review, and according to interviews conducted, the facility requires that any contractor or volunteer who engages in sexual abuse be reported to law enforcement agencies, unless the activity was clearly not criminal, and to relevant licensing bodies. Agency policy requires that any contractor or volunteer who engages in sexual abuse be prohibited from contact with residents. According to the Pre-Audit Questionnaire, in the past 12 months, there have been no allegations against contractors or volunteers, and none have been reported to law enforcement agencies and relevant licensing bodies for engaging in sexual abuse of residents. Policy and interviews indicate the facility takes appropriate remedial measures and considers whether to prohibit further contact with residents in the case of any other violation of agency sexual abuse or sexual harassment policies by a contractor or volunteer.

- In the event a disciplinary sanction results in the isolation of a resident, does the agency ensure the resident is not denied access to any legally required educational programming or special education services? Yes No

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does

not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Residents are subject to disciplinary sanctions only pursuant to a formal disciplinary process following an administrative finding, or criminal finding, that the resident engaged in resident-on-resident sexual abuse. The facility offers therapy, counseling, or other interventions designed to address and correct the underlying reasons or motivations for abuse, and it considers whether to require the offending resident to participate in such interventions as a condition of access to any rewards-based behavior management system or other behavior-based incentives. Yet, access to general programming or education is not conditional on participation in such interventions. The agency disciplines residents for sexual contact with staff only upon finding that the staff member did not consent to such contact. The agency prohibits disciplinary action for a report of sexual abuse made in good faith, based upon a reasonable belief that the alleged conduct occurred, even if an investigation does not establish evidence sufficient to substantiate the allegation. The agency prohibits all sexual activity between residents, but deems such activity to constitute sexual abuse only if it determines that the activity is coerced. Verification of compliance with this standard was based on a review of policy, review of investigations, and interviews conducted.

Interviews indicate residents at this facility who have disclosed any prior sexual victimization during a screening pursuant to §115.341 are offered a follow-up meeting with a medical or mental health practitioner within 14 days of the intake screening. Exceeding the standard, in the past 12 months, all residents, regardless of disclosure of prior victimization during screening, were offered a meeting with a medical or mental health practitioner. All residents who have previously perpetrated sexual abuse, as indicated during the screening pursuant to § 115.341, are offered a follow-up meeting with a mental health practitioner within 14 days of the intake screening. Mental health staff maintain secondary materials documenting compliance with the above required services. The information shared with other staff is strictly limited to informing security and management decisions, including treatment plans, housing, bed, work, education, and program assignments, or as otherwise required by federal, state, or local law. Also, exceeding standards, every resident listed as a potential victim or perpetrator in an allegation of suspected sexual abuse or harassment is referred for mental health screening. Resident victims of sexual abuse receive timely, unimpeded access to emergency medical treatment and crisis intervention services. The nature and scope of such services are determined by medical and mental health practitioners according to their professional judgment. Medical and mental health staff maintain secondary materials documenting the timeliness of emergency medical treatment and crisis intervention services that were provided; the appropriate response by non-health staff, in the event health staff are not present at the time the incident is reported; and the provision of appropriate and

timely information and services concerning sexually transmitted infection prophylaxis. VYCF residents are offered pregnancy tests when applicable and given information about medical services. Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

DCCR DJJ policies are very clear that VYCF offers medical and mental health evaluations and, as appropriate, treatment to all residents who have been victimized by sexual abuse in any prison, jail, lockup, or juvenile facility. The evaluation and treatment of such victims includes, as appropriate, follow-up services, treatment plans, and, when necessary, referrals for continued care following their transfer to, or placement in, other facilities, or their release from custody. The facility provides such victims with medical and mental health services consistent with the community level of care, or better. Resident victims of sexually abusive vaginal penetration while incarcerated are offered pregnancy tests, although there are no incidents of this in 12 months covered in this audit. If pregnancy results from conduct specified in paragraph (d) of this section, such victims would receive timely and comprehensive information about, and timely access to, all lawful pregnancy-related medical services. Resident victims of sexual abuse while incarcerated are offered tests for sexually transmitted infections as medically appropriate. Treatment services are provided to the victim without financial cost and regardless of whether the victim names the abuser or cooperates with any investigation arising out of the incident. The facility attempts to conduct a mental health evaluation of all known resident-on-resident abusers within 60 days of learning of such abuse history, and it offers treatment when deemed appropriate by mental health practitioners. Compliance with this standard was verified through a review of policies, investigations, other documentation, and through interviews with staff and residents.

According to policy, CDCR DJJ conducts a sexual abuse incident review at the conclusion of every sexual abuse criminal or administrative investigation, unless the allegation has been determined to be unfounded. IPRC meets monthly to assure all cases are reviewed within 30 days. The sexual abuse incident review team includes upper-level management officials and allows for input from line supervisors, investigators, and medical or mental health practitioners. The review team considers whether the allegation or investigation indicates a need to change policy or practice to better prevent, detect, or respond to sexual abuse; considers whether the incident or allegation was motivated by race; ethnicity; gender identity; lesbian, gay, bisexual, transgender, or intersex identification, status, or perceived status; or, gang affiliation; or was motivated or otherwise caused by other group dynamics at the facility; examines the area in the facility where the incident allegedly occurred to assess whether physical barriers in the area may enable abuse; assesses the adequacy of staffing levels in that area during different shifts; assesses whether monitoring technology should be deployed or augmented to supplement supervision by staff; and prepares a report of its findings, including but not necessarily limited to determinations made pursuant to this section, and any recommendations for improvement, and submits such report to the facility head and PREA compliance manager. In addition, DPRC meets quarterly to review incidents to assure this information is followed up on and compiled and updated in compliance with § 115.388 (Data review for corrective action). DJJ includes staff sexual misconduct, if any, in these reviews. Interviews with upper-level officials indicate this standard, and related policy, is taken very seriously by the department.
