

Covid-19: Interim Guidance for Health Care and Public Health Providers

COVID-19 SCREENING AND TESTING MATRIX FOR PATIENT MOVEMENT

1. *To reduce the likelihood of COVID-19 spreading from one location to another, movement shall be limited to that which is necessary for clinical care, medical isolation or quarantine, reduction of overcrowding, and serious custody concerns. Admission to PIP and MHCB shall be considered necessary transfers.*
2. *Institutions or facilities/yards within institutions may be closed for movement in and/or out due to a COVID outbreak. Movement in and out of locations that are “closed” due to COVID activity may occur on a case-by-case basis and shall require prior approval from the Director, Health Care Services and Director, Health Care Operations or designees. Close coordination shall take place between sending and receiving institutions.*
3. *COVID-19 screening consists of a verbal symptom questionnaire and temperature screening.*
4. *All COVID-19 testing shall be by Polymerase Chain Reaction (PCR) unless specifically stated otherwise.*
5. *Inmates and transportation staff shall wear N95 masks during transfer. Transportation vehicles shall be operated with reduced occupancy and shall be disinfected after each trip.*
6. *Every effort shall be made to avoid layovers during transportation. If a layover is essential, this shall be preapproved by the Directors of DAI and Health Care Services or their designees and coordinated in advance with the receiving facilities.*
7. *Whenever possible, precautionary transfer quarantine shall take place in celled housing with a solid door. Facilities which by design have no cell based housing shall conduct precautionary transfer quarantine in cohorts of no more than 4 in a dorm or small tent solely dedicated to a cohort that arrived on the same day.*
8. *Symptomatic inmates shall be isolated alone in celled housing with a solid door and tested for COVID-19.*
9. *Inmates with a PCR-confirmed diagnosis of COVID-19 may be housed together as a cohort on isolation status.*
10. *Inmates who were previously infected with COVID and were subsequently moved to the resolved status are considered by the CDC to be immune from re-infection for 90 days from the date of first symptoms or first positive test, whichever came first. These patients shall not be required to re-test or be quarantined for movement purposes during that timeframe. All movement of “resolved” patients within this 90-day window shall be coordinated by HCPOP in consultation with the CCHCS Public Health Unit.*
11. *Inmates who have a COVID Risk Score of three or more who are transferred shall only be housed in cells with solid front doors. Inmates with COVID risk scores of three or more shall not transfer to SQ, FSP, ASP, CVSP, CRC, CMC-West, or CIM FAC-A and D*

TYPE OF MOVEMENT	COVID SCREENING AND TESTING STRATEGY	WHAT TO DO IF PATIENT REFUSES COVID TEST
<p>From jail to reception center</p>	<p>Sending jail:</p> <ul style="list-style-type: none"> • Do not transfer inmates who are currently isolated or quarantined due to exposure. • Perform COVID screening and test by PCR five days prior to scheduled transfer. • If PCR negative and COVID screen negative, transfer within 5 days of PCR test collection. • Inmates who are symptomatic and/or test positive during pre-transfer testing shall not be transferred. • All inmates and transportation staff shall wear an N95 mask during transfer. <p>Receiving reception center:</p> <ul style="list-style-type: none"> • Quarantine all new arrivals for 14 days. • Screen all new arrivals for COVID-19 upon arrival and then daily while in quarantine. • Test all new arrivals for COVID-19 within 24 hours, again on day 5 and again prior to release from quarantine (day 12-14). • May release inmates from quarantine after 14 days if asymptomatic and all COVID-19 tests are negative. • Inmates who are symptomatic and/or test positive shall be isolated as per interim guidance. 	<p>Inmate to remain in quarantine for at least 21 days and receive daily symptom screening.</p> <p>Disposition to be determined in consultation with the Deputy Director, Medical Services or designee.</p>
<p>From jail directly to Specialized Medical Beds (SMB)</p>	<ul style="list-style-type: none"> • Advance authorization required by the Director, Health Care Services or designee. • The Intake Control Unit and HCPOP shall coordinate these moves and shall inform the receiving CEO and CME in advance. • All inmates and transportation staff shall wear an N95 mask during transfer. • Quarantine all new arrivals for 14 days. • Screen all new arrivals for COVID-19 upon arrival and then daily while in quarantine. • Test all new arrivals for COVID-19 within 24 hours, again on day 5 and again prior to release from quarantine (day 12-14). • May release inmates from quarantine after 14 days if asymptomatic and all COVID-19 tests are negative. • Inmates who are symptomatic and/or test positive during pre-transfer testing shall be isolated as per interim guidance. 	<p>Inmate to remain in quarantine for at least 21 days and receive daily symptom screening.</p> <p>Disposition to be determined in consultation with the Deputy Director, Medical Services or designee.</p>

TYPE OF MOVEMENT	COVID SCREENING AND TESTING STRATEGY	WHAT TO DO IF PATIENT REFUSES COVID TEST
From reception center to institution	<ul style="list-style-type: none"> Do not transfer inmates who are currently isolated or quarantined due to exposure. Pre-transfer precautionary quarantine not required unless inmate refuses testing or receiving institution unable to quarantine as described above. Perform COVID screening and test by PCR five days prior to scheduled transfer. If PCR negative, screen for COVID and obtain rapid test on day of scheduled transfer. If PCR negative, screen negative, and rapid test negative, transfer within 5 days of PCR test collection and one day of rapid test collection. Inmates who are symptomatic and/or test positive during pre-transfer testing shall not be transferred and shall be isolated as per interim guidance. All inmates and transportation staff shall wear an N95 mask during transfer. 	<p>Inmate to be placed in quarantine for at least 21 days and receive daily symptom screening.</p> <p>Disposition to be determined in consultation with the Deputy Director, Medical Services or designee.</p>
Institution intake from reception center	<ul style="list-style-type: none"> Quarantine patients for 14 days. Screen for COVID-19 upon arrival and then daily while in quarantine. Test for COVID-19 on day 5 and then again on day 12-14 of quarantine. May release inmates from quarantine after 14 days if asymptomatic and COVID-19 test is negative. Inmates who are symptomatic and/or test positive shall be isolated as per interim guidance. 	<p>Inmate to remain in quarantine for at least 21 days.</p> <p>Disposition to be determined in consultation with the Deputy Director, Medical Services or designee.</p>
General population movement from one institution to another, including to camp hubs; movement from ASU / STRH / LTRH / SHU to another facility; movement to facilitate out to court appearance	<p>Sending institution</p> <ul style="list-style-type: none"> Do not transfer inmates who are currently isolated or quarantined due to exposure. Pre-transfer precautionary quarantine not required unless inmate refuses testing or receiving institution unable to quarantine as described above. Perform COVID screening and test by PCR five days prior to scheduled transfer. If PCR negative, screen for COVID and obtain rapid test on day of scheduled transfer. If PCR negative, screen negative, and rapid test negative, transfer within 5 days of PCR test collection and one day of rapid test collection. Inmates who are symptomatic and/or test positive during pre-transfer testing shall not be transferred and shall be isolated as per interim guidance. All inmates and transportation staff shall wear an N95 mask during transfer. <p>Receiving institution</p> <ul style="list-style-type: none"> Quarantine patients for 14 days. Screen for COVID-19 upon arrival and then daily while in quarantine. Test for COVID-19 on day 5 and then again on day 12-14 of quarantine. May release inmates from quarantine after 14 days if asymptomatic and COVID-19 test is negative. Inmates who are symptomatic and/or test positive shall be isolated as per interim guidance. 	<p>Sending and receiving institutions:</p> <p>Inmate to be placed in quarantine for at least 21 days.</p> <p>Disposition to be determined in consultation with the Deputy Director, Medical Services or designee.</p>

TYPE OF MOVEMENT	COVID SCREENING AND TESTING STRATEGY	WHAT TO DO IF PATIENT REFUSES COVID TEST
<p>Movement from one institution to another for OHU, CTC, SNF, or Hospice placement</p>	<p>Sending institution <u>Movement that clinicians have determined to be urgent or emergent:</u></p> <ul style="list-style-type: none"> • Perform rapid testing for COVID-19 on day of transfer. • Transfer patient regardless of the results of the COVID-19 test. • Communicate results to receiving facility. • All inmates and transportation staff shall wear an N95 mask during transfer. <p><u>Movement that clinicians have determined to not be urgent or emergent:</u></p> <ul style="list-style-type: none"> • Pre-transfer precautionary quarantine not required unless inmate refuses testing or receiving institution unable to quarantine as described above. • Perform COVID screening and test by PCR five days prior to scheduled transfer. • If PCR negative, screen for COVID and obtain rapid test on day of scheduled transfer. • If PCR negative, COVID screen negative, and rapid test negative, transfer within 5 days of PCR test collection and one day of rapid test collection. • Inmates who are symptomatic and/or test positive during pre-transfer testing shall not be transferred and shall be isolated as per interim guidance. <p>Receiving institution <u>New arrivals who tested positive at sending institution:</u></p> <ul style="list-style-type: none"> • Isolate as per interim guidance. <p><u>New arrivals who tested negative at sending institution:</u></p> <ul style="list-style-type: none"> • Quarantine for 14 days. • Screen for COVID-19 upon arrival and then daily while in quarantine. • Test for COVID-19 on day 5 and then again on day 12-14 of quarantine. • May release inmates from quarantine after 14 days if asymptomatic and COVID-19 test is negative. • Inmates who are symptomatic and/or test positive shall be isolated as per interim guidance. 	<p>Sending and receiving institutions: Inmate to be placed in quarantine for at least 21 days.</p> <p>Disposition to be determined in consultation with the Deputy Director, Medical Services or designee.</p>

TYPE OF MOVEMENT	COVID SCREENING AND TESTING STRATEGY	WHAT TO DO IF PATIENT REFUSES COVID TEST
<p>Movement within same institution</p> <ul style="list-style-type: none"> • Release or move into STRH, LTRH, ASU, SHU • PIP/MHCB admission or discharge • CTC, OHU, Hospice admission or discharge • Mental health level of care change • DPP moves • DDP moves • All other routine mvmt 	<ul style="list-style-type: none"> • Patients shall not be moved to or from an outbreak area at the same institution unless it is for purposes of isolation or quarantine. • No quarantine or testing required for movement within the same institution unless the patient will be moving into a large dorm (20 or more residents). If so, perform COVID screening and COVID-19 testing of the inmate within 5 days prior to this move. Only move the patient if the COVID screen and test are negative. • If movement is considered urgent or emergent, perform a rapid test and transfer within a day if COVID screen and test are negative. • Inmates who are symptomatic and/or test positive shall not be transferred and shall be isolated as per interim guidance. 	<p>Inmate to be placed in quarantine for at least 21 days, unless placement in quarantine is impossible (e.g., MSF), in which case the inmate will not be moved.</p> <p>Disposition to be determined in consultation with the Deputy Director, Medical Services or designee.</p>
<p>Admission to MHCB or PIP at another institution</p>	<p>Sending institution</p> <ul style="list-style-type: none"> • Perform COVID screening and rapid testing for COVID-19 on day of transfer. • Transfer patient regardless of the results of the COVID-19 test. • Communicate results to receiving facility. • All inmates and transportation staff shall wear an N95 mask during transfer. <p>Receiving institution</p> <p><u>New arrivals who screened or tested positive at sending institution:</u></p> <ul style="list-style-type: none"> • Isolate as per interim guidance. <p><u>New arrivals who tested negative at sending institution:</u></p> <ul style="list-style-type: none"> • Quarantine for 14 days. • Screen for COVID-19 upon arrival and then daily while in quarantine. • Test for COVID-19 on day 5 and then again on day 12-14 of quarantine. • May release inmates from quarantine after 14 days if asymptomatic and COVID- 19 test is negative. • Inmates who are symptomatic and/or test positive shall be isolated as per interim guidance. 	<p>Receiving institution:</p> <p>Inmate to be placed in quarantine for at least 21 days.</p> <p>Disposition to be determined in consultation with the Deputy Director, Medical Services or designee.</p>

TYPE OF MOVEMENT	COVID SCREENING AND TESTING STRATEGY	WHAT TO DO IF PATIENT REFUSES COVID TEST
<p>Discharge from MHCB or PIP to another institution</p>	<p>Sending institution</p> <ul style="list-style-type: none"> • Do not transfer inmates who are currently isolated or quarantined due to exposure. • Pre-transfer precautionary quarantine not required unless inmate refuses testing or receiving institution unable to quarantine as described above. • Perform COVID screening and test by PCR five days prior to scheduled transfer. • If PCR negative, screen for COVID and obtain rapid test on day of transfer. • If PCR negative, screen negative, and rapid test negative, transfer within 5 days of PCR test collection and one day of rapid test collection. • Inmates who are symptomatic and/or test positive during pre-transfer testing shall not be transferred and shall be isolated as per interim guidance. • All inmates and transportation staff shall wear an N95 mask during transfer. <p>Receiving institution</p> <ul style="list-style-type: none"> • Quarantine patient for 14 days. • Screen for COVID-19 upon arrival and then daily while in quarantine. • Test for COVID- 19 on day 5 and then again on day 12-14 of quarantine. • May release inmates from quarantine after 14 days if asymptomatic and COVID-19 test is negative. • Inmates who are symptomatic and/or test positive shall be isolated as per interim guidance. 	<p>Sending and receiving institutions: Inmate to be placed in quarantine for at least 21 days.</p> <p>Disposition to be determined in consultation with the Deputy Director, Medical Services or designee.</p>
<p>Transfer to DSH from CDCR</p>	<ul style="list-style-type: none"> • Perform COVID screening and test by PCR five days prior to scheduled transfer. • If inmate is asymptomatic and tests negative, transfer as soon as possible but no more than 5 days after test was administered. If the patient tests positive, further conversation shall take place between the sending and receiving clinicians to determine if the patient will transfer immediately or complete isolation within the CDCR. • All inmates and transportation staff shall wear an N95 mask during transfer. 	<p>Disposition to be determined in consultation with Deputy Director Mental Health or designee and DSH.</p>
<p>OMDH paroles to DSH</p>	<ul style="list-style-type: none"> • Screen inmate and test for COVID 19 within 5 days of parole date. • Communicate results to DSH prior to inmate parole. • Transport inmate on the day of their parole to DSH. • All inmates and transportation staff shall wear an N 95 respirator during transfer. 	<p>Communicate information to DSH and transport the inmate on their date of parole.</p>

TYPE OF MOVEMENT	COVID SCREENING AND TESTING STRATEGY	WHAT TO DO IF PATIENT REFUSES COVID TEST
DSH discharge to CDCR	<p>Sending DSH institution</p> <ul style="list-style-type: none"> Do not transfer inmates who are currently isolated or quarantined due to exposure. Screen and test for COVID prior to transfer. If inmate is asymptomatic and tests negative, transfer as soon as possible but no more than 5 days after test was administered. All inmates and transportation staff shall wear an N95 mask during transfer. <p>Receiving CDCR institution</p> <ul style="list-style-type: none"> Quarantine inmate for 14 days. Screen for COVID-19 upon arrival and then daily while in quarantine. Test for COVID-19 on day 5 and then again on day 12-14 of quarantine. May release inmates from quarantine after 14 days if asymptomatic and COVID-19 test is negative Inmates who are symptomatic and/or test positive shall be isolated as per interim guidance. 	<p>DSH: Disposition to be determined in consultation with Deputy Director Mental Health or designee, DSH, the Deputy Director, Medical Services or designee.</p> <p>Receiving CDCR institution: Inmate to be placed in quarantine for at least 21 days.</p> <p>Disposition to be determined in consultation with the Deputy Director, Medical Services or designee.</p>
To MCCF, ACP, CCTRP, MCRP, fire campfire camp (unable to quarantine new arrivals)	<ul style="list-style-type: none"> Do not transfer inmates who are currently quarantined due to exposure. Quarantine inmate prior to transfer. Screen for COVID-19 initially and then daily while in quarantine. Test for COVID on day 12-14 of quarantine. Inmate to remain in quarantine while awaiting results. If inmate tests negative, transfer as soon as possible but no more than 5 days after test was administered. All inmates and transportation staff shall wear an N95 mask during transfer. Inmates who are symptomatic and/or test positive shall be isolated as per interim guidance. 	Do not transfer.

TYPE OF MOVEMENT	COVID SCREENING AND TESTING STRATEGY	WHAT TO DO IF PATIENT REFUSES COVID TEST
<p>From MCCF, ACP, CCTRP, MCRP, CPMP, or fire camp to an institution (unable to quarantine prior to transport)</p>	<p>All inmates and transportation staff shall wear an N95 mask during transfer.</p> <p>Receiving CDCR institution</p> <ul style="list-style-type: none"> • Quarantine inmate for 14 days upon arrival. • Screen for COVID-19 upon arrival and then daily while in quarantine. • Test for COVID-19 on day 5 and then again on day 12-14 of quarantine. • May release inmates from quarantine after 14 days if asymptomatic and COVID-19 test is negative. • Inmates who are symptomatic and/or test positive shall be isolated as per interim guidance. <p>Inmates returning to an institution for urgent/emergent dental treatment</p> <ul style="list-style-type: none"> • Perform rapid COVID test immediately upon arrival prior to dental treatment. If the inmate tests negative, dental care will be rendered as appropriate. If the inmate tests positive, the inmate shall be isolated and dental treatment will proceed pursuant to dental program policy for COVID-19 positive patients. 	<p>Inmate to be placed in quarantine for at least 21 days.</p> <p>Disposition to be determined in consultation with the Deputy Director, Medical Services or designee.</p>
<p>From one fire camp to another fire camp</p>	<ul style="list-style-type: none"> • Perform symptom screening. • If screens negative, may transfer to new camp without testing. • If screens positive, transport to closest prison for COVID testing and either isolation or quarantine depending upon the results. • Inmate and staff shall wear N95 during transportation. 	<p>N/A</p>
<p>From fire camp to emergency room for treatment of minor injuries/conditions prior to same day release to fire camp.</p>	<ul style="list-style-type: none"> • Inmate and staff shall wear N95 during transportation and while in the emergency department. 	<p>N/A</p>
<p>From fire camp to hospital for admission or other more serious condition</p>	<ul style="list-style-type: none"> • When released, inmate shall be transported back to a prison for appropriate housing/quarantine/testing. • All inmates and transportation staff shall wear an N95 mask during transfer. 	<p>N/A</p>
<p>Parole, medical parole, PRCS release</p>	<ul style="list-style-type: none"> • All inmates shall be screened for COVID-19 symptoms and then tested for COVID within one week of release. • Results of testing shall be communicated to parole agent or probation officer and local public health officer in county of release. • If inmate tests positive, manage as detailed in the COVID interim guidance. • All inmates and transportation staff shall wear an N95 mask during transfer. 	<p>Inmates cannot be held beyond their parole date regardless of whether they agree to test or if the test is positive.</p>

TYPE OF MOVEMENT	COVID SCREENING AND TESTING STRATEGY	WHAT TO DO IF PATIENT REFUSES COVID TEST
<p>Out to court, same day return</p>	<p>Use videoconferencing to avoid out-to-court travel in all cases unless court refuses.</p> <ul style="list-style-type: none"> If inmate remained in the custody of the transportation officer at all times, and if the inmate wore a face covering at all times, quarantine upon return shall not be required. All inmates and transportation staff shall wear an N95 mask during transfer. 	<p>N/A</p>
<p>Out to court, at least one overnight stay in a jail or another prison.</p>	<p>Sending institution</p> <ul style="list-style-type: none"> Notify court in advance regarding any inmates who are currently isolated or quarantined due to exposure. Plan will be determined in consultation with the court. For all other inmates, screen for COVID symptoms and perform rapid test on the day of departure. If COVID screen and test are negative, patient can be transported. Inmates who are symptomatic and/or test positive shall be isolated as per interim guidance and the court shall be notified. All inmates and transportation staff shall wear an N95 mask during transfer. <p>Receiving CDCR Institution</p> <ul style="list-style-type: none"> Manage like an intake from jail to reception center. All inmates and transportation staff shall wear an N95 mask during transfer. Quarantine all new arrivals for 14 days after arrival. Screen all new arrivals for COVID-19 upon arrival and then daily while in quarantine. Test all new arrivals for COVID-19 within 24 hours, again on day 5 and again prior to release from quarantine (day 12-14). May release inmate from quarantine after 14 days if asymptomatic and all COVID-19 tests are negative. Inmates who are symptomatic and/or test positive shall be isolated as per interim guidance. 	<p>Sending institution: Refusals to test prior to OTC appointments should be communicated to the courts.</p> <p>Inmate to be placed in pre-transfer quarantine for at least 21 days.</p> <p>Disposition to be determined in consultation with the Deputy Director, Medical Services or designee.</p> <p>Receiving institution: Inmate to be placed in quarantine for at least 21 days.</p> <p>Disposition to be determined in consultation with the court.</p>
<p>Out for clinical appointment, same day return</p>	<ul style="list-style-type: none"> Use "e-consult" and telemedicine whenever possible to avoid unnecessary offsite transportation. All inmates and transportation staff shall wear an N95 mask during transfer. Perform daily COVID screening for 14 days upon return. Symptomatic inmates shall be isolated and tested as per interim guidance. 	<p>N/A</p>
<p>Return from outside hospitalizations and emergency department visits</p>	<p>Manage like an intake from jail to reception center</p> <ul style="list-style-type: none"> All inmates and transportation staff shall wear an N95 mask during transfer. Quarantine for 14 days. Screen for COVID-19 upon arrival and then daily while in quarantine. Test for COVID-19 at 24 hours, again at day 5, and on day 12-14 of quarantine. May release inmates from quarantine after 14 days if asymptomatic and all COVID-19 tests are negative. Inmates who are symptomatic and/or test positive shall be isolated as per interim guidance. 	<p>Inmate to be placed in quarantine for at least 21 days.</p> <p>Disposition to be determined in consultation with the Deputy Director, Medical Services or designee.</p>

ISOLATION AND QUARANTINE GENERAL PRINCIPLES

At a number of institutions, including ASP, CRC, CVSP, FSP and SQ, the available facilities are insufficient to achieve some basic isolation and quarantine standards. In those institutions, quarantining in groups of larger than 2 patients may be necessary. All efforts should be made at these institutions to find quarantine alternatives that satisfy the purposes of a post-exposure quarantine as set forth below.

Decisions about post-exposure quarantine housing at CHCF and CMF are committed to the discretion of the medical leadership at those institutions in recognition of the materially different missions and operations at those two facilities. CHCF and CMF shall maintain their minimum quarantine set-asides.

At institutions experiencing an outbreak where the number of COVID positive patients exceeds 200 or the number of patients who should be quarantined exceeds the number of beds set aside at that institution for quarantine, decisions about post-exposure quarantine and housing shall be committed to the discretion of the warden and CEO of their designees at the institution in consultation with CDCR and CCHCS regional and headquarters staff.

Refusals of patients to undergo necessary COVID testing and/or movement to isolation or quarantine space shall be promptly elevated to the warden and CEO who shall discuss their plans of action with the regional health care executive and AD.

ISOLATION: GENERAL PRINCIPLES

Patients who are in isolation shall:

- Remain in their isolation location unless approved by clinical staff to move elsewhere
- Be medicated and fed in their isolation location
- Shall receive clinical care in their isolation location
- Shall not share showers or toilets with those who are not infected

ISOLATION OF INFECTED PATIENTS AND PRECAUTIONARY ISOLATION OF SYMPTOMATIC PATIENTS WHO ARE AWAITING TESTING

1. Isolation of patients who are infected with COVID-19
 - a. All infected patients are to be isolated.
 - b. Asymptomatic patients who were diagnosed solely based upon a rapid point of care test (POC) shall be isolated apart from others until the POC test is confirmed by a PCR test.
 - c. Infected patients shall not be housed with patients who are not confirmed to have COVID-19.
 - d. Infected patients can be housed in congregate living sites with other COVID-19 infected patients.
 - e. Twice daily health care monitoring shall be conducted for patients diagnosed with COVID-19.
 - f. All staff interacting with COVID-19 infected patients shall wear an N95 mask, eye protection, and when in direct contact gloves and gowns.

2. Precautionary isolation of symptomatic patients who are being evaluated for COVID-19 infection
 - a. Symptomatic patients who have not yet been confirmed to have COVID-19 shall be isolated separately from confirmed COVID-19 patients and separately from those who are not symptomatic.
 - b. Twice daily health care monitoring shall be conducted for symptomatic patients who are awaiting diagnosis.
 - c. All staff interacting with symptomatic isolated patients shall wear an N95 mask, eye protection, and when in direct contact gloves and gowns.

QUARANTINE OF PATIENTS WHO HAVE BEEN EXPOSED TO COVID-19 AND PRECAUTIONARY QUARANTINE PRE OR POST TRANSFER

1. Quarantine of Patients who have been Exposed to COVID-19
 - a. These patients are at risk of being infected as a result of their exposure. Thus, they shall be separated from both the confirmed cases and from the symptomatic but not yet confirmed cases.
 - b. For individual cases, the preference is for quarantine in a private room with a solid, closed door.
 - c. Exposed persons shall not be housed in dorms with those who are not known to be exposed.
 - d. If private rooms are not available, persons with the same exposure can be quarantined together as a cohort.
 - e. If cohorting is essential, quarantine cohorts shall be as small as possible (2-4 persons).
 - f. Daily healthcare monitoring shall be conducted for patients who are under quarantine.
 - g. Serial testing and healthcare surveillance is used to identify those who are infected so that they can be moved to isolation.
 - h. Patients shall not be released from quarantine until they have completed 14 days of quarantine and tested negative for COVID-19 by PCR. If testing is refused, quarantine shall be extended to 21 days.
 - i. Any inmate who develops symptoms shall be placed in isolation alone and tested for COVID-19.
2. Precautionary quarantine for persons who are post transfer
 - a. Each facility shall maintain sufficient quarantine space to accommodate its historical average volume of transfers.
 - b. For individual cases, the preference is for quarantine in a private room with a solid, closed door.
 - c. If private rooms are not available, persons can be quarantined together as a cohort.
 - d. If cohorting is essential, quarantine cohorts shall be as small as possible (2-4 persons).
 - e. Cohorts with different movement dates shall be separated.
 - f. Cohorts with different types of movement shall also be separated, including those coming in from jails or transferring between institutions.
 - g. Patients arriving to an institution shall not be released from quarantine until they have completed quarantine and tested negative for COVID-19 by PCR.
 - h. Any inmate who develops symptoms should be placed in isolation alone and tested for COVID-19.
