California State Parole Guiding Principles

Community well-being and safety is our core focus and purpose. We support successful parolee reintegration utilizing science and technology while treating each individual with dignity and respect. Applying a procedural justice framework, we advocate for parolees, victims, and their families to achieve positive sustainable change, build mutual trust, and strengthen collaborative partnerships.

WE ARE COMMITTED TO FIVE GUIDING PRINCIPLES:

Serve as an Advocate

Protect and promote the rights of parolees, victims, and their families, while reducing future victimization through restorative justice principles.

Embrace Family Systems

Fully accept the family network by fostering open communication and collaboration.

Build and Strengthen Community Partnerships

Strengthen community relationships by building mutual trust, breaking down barriers, and overcoming stereotypes in order to ensure safety and protection for all.

Stay Actively Engaged and Informed

Utilize a short-term approach incorporating goal-based supervision with realistic, attainable benchmarks for success leading to long-term behavior change.

Support Employee Wellness and Embrace Staff Diversity as a Strength

Prioritize the physical and emotional health of our staff to promote their well-being and foster a culture of diversity and inclusion in the workplace.

Programs

The Division of Adult Parole Operations (DAPO) in collaboration with the Division of Rehabilitative Programs (DRP) is committed to reducing recidivism by providing evidence-based programming to the supervised person population. Collaboration with community stakeholders and DRP-contracted providers is essential for successful reintegration of supervised persons into the community.

DAPO provides specialized guidance, support, program oversight and acts as liaison to DRP ensuring supervised person participation in:

- DRP Contracted Programs
- Non-Contracted & Community-based Treatment Programs
- Parole and Community Team (PACT) Orientation Meetings
- Lifer Peer Reentry Navigation Network (PRNN)
- Women Empowerment Support Group (WE)

DRP Contracted Programs

Division of Rehabilitative Programs (DRP) has established contracts with specific programs statewide to address a supervised person's criminogenic needs. Your parole agent will know if these programs and resources are available in your area and will be able to refer you to them if they are.

Non-Contracted or Community-based Treatment Programs

Non-contracted or "Community-based treatment programs" are programs in the community that will address a supervised person's criminogenic needs.

- Alcohol Anonymous Classes
- Narcotic Anonymous Classes
- Residential Drug Treatment
- Employments Services, etc.

Parole and Community Team

The Parole and Community Team (PACT) creates partnerships with local law enforcement agencies, community resource providers, and social service agencies in an effort to reduce crime and improve a supervised person's access to needed services in the community.

If it is available in your area, you will be instructed to attend the mandatory PACT meeting shortly after you are released. While the meeting is mandatory for newly released supervised persons, any supervised person needing additional resources is welcome to participate. Your participation at the PACT orientation meeting will allow you to engage in community-based programming and will provide you with opportunity to learn about, contact, and enroll in available community programs. DAPO provides supervised persons with timely information about community resources and required programming, which improves public safety and

promotes successful reintegration into the community. Upon request, you will be provided with a PACT Resource Brochure, which lists contact information for the service providers in your area of supervision. For the latest fiscal year schedule please [click here](#).

Peer Re-Entry Navigation Network Program

The Peer Reentry Navigation Network (PRNN) is a program specifically for formally incarcerated long-term offenders who have been found suitable for release by the Board of Parole Hearings. Being released back into the community after many years of incarceration presents numerous challenges that the PRNN will address including reintegration and transitional topic discussions, finding access to housing, exploring employment opportunities and reuniting with family and friends. Equally important, the group provides a support system of peers who have also experienced the impact of long-term incarceration. Additionally, the PRNN hosts parole professionals who specialize in serving long-term offenders as well as community partners who provide resource services and support. Parole facilitates the PRNN meetings each month throughout the State. Contact your parole agent for information about the Peer Reentry Navigation Network Program. For the latest fiscal year schedule please [click here](#).

Women Empowerment Support Group

The Women Empowerment (WE) Support Group provides support, assistance, and guidance to women on parole supervision who are adapting to the day-to-day challenges, while striving toward successful community reintegration. Parole facilitates the WE meetings each month throughout the State. Contact your parole agent for information about this program. For the latest fiscal year schedule please [click here](#).

Females Achieving Change Together

The Females Achieving Change Together (FACT) meetings represent the DAPO commitment to creating programs and supervision strategies aimed to reduce female recidivism. The program was created in 2014 by the Northern Region Programs Team in Fresno. Since then, FACT has spread to Sacramento and San Francisco (SF). The specialized female supervised person program was created to focus on the needs of females upon reentry. Many female offenders have suffered physical, emotional, and sexual abuse that create unique challenges for females to reintegrate back into society. Each area event offers reentry resources to female supervised persons focusing on gender-responsive solutions to help them thrive in society and reduce the likelihood of going back to jail or prison.

Affordable and Transitional Housing Programs:

Housing Choice Voucher Program: The Housing Choice Voucher Program (also known as Section 8) helps low-income families, elderly persons, veterans and disabled individuals afford housing in the private market. Program participants can choose any eligible housing unit, including single-family homes, townhouses, and apartments, with rent partially covered by a subsidy paid directly to the landlord. There are around 2,000 Local Public Housing Agencies (PHAs) across the country that administer the HCV program with funding from HUD. [Housing Choice Voucher Tenants | HUD.gov / U.S. Department of Housing and Urban Development \(HUD\)](#)

Affordable Rental Housing List: [OC Affrd Hsing List Revised 3.2025.xls](#)

Special Housing Programs:

In addition to the Section 8 Housing Choice Voucher Program, OCHA administers the following Special Purpose Voucher programs targeted to clients who meet specific eligibility criteria and are referred by various partner agencies.

- Veterans Affairs Supportive Housing (VASH) program provides rental assistance and case management for homeless Veterans. Eligible Veterans are referred by the Long Beach VA Medical Center. Interested persons may contact the VA Community Resource & Referral Center (CRRC) to determine eligibility. For walk-in hours and directions to CRRC, please call 844-838-8300.
- Family Unification Program (FUP) provides rental assistance for families where parents and their children have been reunited after separation or imminent danger of being separated or to youth who are at least 18 and have not yet reached their 25th birthday, who have left foster care (or will leave foster care in 90 days) and are homeless or are at risk of becoming homeless. Eligible families and youth are referred by the Social Services Agency (SSA). Interested persons may contact SSA for a determination of eligibility. If you need further assistance, contact OCHA at 714-480-2777 or 714-480-2922.
- Non-Elderly Disabled (NED) provides rental assistance for qualified persons transitioning from nursing facilities to independent living with supportive services. Eligible persons are referred by Dayle McIntosh and other partner agencies. Interested persons may contact the Dayle McIntosh Center (DMC) at 714-621-3300

· Mainstream provides rental assistance for non-elderly homeless, disabled households who are exiting, or exited, from recuperative care or have been frequent users of Orange County hospitals/ER services. Eligible persons are referred by the Orange County Health Care Agency (HCA) and by the Coordinated Entry System (CES)

Interested persons may contact HCA to determine eligibility at (714) 834-2182.

· Project Based Voucher (PBV) program is a discretionary component of the Section 8 Housing Choice Voucher (HCV) program. Under the PBV program, OCHA enters into an assistance contract with the owner for a specified number of units for a specified term. Eligible persons are referred from the CES. For a complete list of existing and pending PBV projects, please visit our website at: ochousing.org. Interested persons may contact 2-1-1 to be connected to a CES access point.

· Continuum of Care (CoC-formerly Shelter Plus Care) provides rental assistance for homeless households with disabilities. Eligible persons are referred from the CES. Interested persons may contact 2-1-1 to be connected to a CES access point.

· Emergency Housing Voucher (EHV) program is used to provide rental assistance and services for households that are:

- Homeless
- At risk of homelessness
- Fleeing domestic violence, sexual assault, stalking, or human trafficking
- Recently homeless

The Orange County Housing Authority is no longer receiving referrals to the Emergency Housing Voucher Program. Individuals or families who meet the eligibility criteria and want to be considered for other housing opportunities may contact 2-1-1 to be connected to a CES access point.

Project Based Voucher:

The Project-Based Voucher (PBV) Program is a discretionary component of the Section 8 Housing Choice Voucher (HCV) program. The PBV attaches rental assistance to specific housing units in properties that are determined to be decent, safe and sanitary through the Housing Quality Standards inspection process. Under the PBV program, Orange County Housing Authority (OCHA) enters into an assistance contract with the owner for specified units and for a specified term.

Tenants residing in Project-based units pay 30% of their income for rent and utilities, and the balance of their housing costs are paid by OCHA. Tenants in Project-Based units are assisted as long as they live in the unit and continue to qualify for the program.

Many of our PBV projects are fully leased. When a vacancy occurs, OCHA will fill the vacancy from a referral through the Coordinated Entry System (CES). In order to be referred through CES, interested persons must be connected to CES through an access point. You may contact 2-1-1 to request to be connected to a CES access point for housing opportunities.

If you are on our current Housing Choice Voucher (HCV) waiting list, on the CES list, and are eligible for one of OCHA's PBV projects, you will have priority for the project when a vacancy occurs.

If you are on our HCV waiting list and are interested in any of these projects, please reach out to OCHA staff at: (714) 480-2835 for more information.
