Why do you need a Social Security Number?

A Social Security number is important because you need it to get a job, collect Social Security benefits and get some other government services.

How to apply for a Social Security Number or Replacement Card

You will need to provide original documents for verification:

- Citizenship
  - SSA can accept only certain documents as proof of U.S. citizenship
- Age

  - You must present your birth certificate. If one exists, you must submit it. If a birth certificate does not exist, we may be able to accept your:
    - Religious record made before the age of five showing your date of birth
    - U.S. hospital record of your birth
    - U.S. passport
  - Anyone age 12 or older requesting an original Social Security number (SSN) must appear in person for an interview. We will ask for evidence to show you do not have a SSN
- Identity
  - SSA can accept only certain documents as proof of identity. An acceptable document must be current (not expired) and show your name, identifying information (date of birth or age) and preferably a recent photograph. For example, as proof of identity SSA must see your:
    - U.S. driver's license
    - State-issued non-driver identification card

- Employee identification card.
- School identification card.

SSA recommends that you keep your Social Security card in a safe place with your other important papers and avoid giving it out unnecessarily.

Programs

The Division of Adult Parole Operations (DAPO) in collaboration with the Division of Rehabilitative Programs (DRP) is committed to reducing recidivism by providing evidence-based programming to the supervised person population. Collaboration with community stakeholders and DRP-contracted providers is essential for successful reintegration of supervised persons into the community.

DAPO provides specialized guidance, support, program oversight and acts as liaison to DRP ensuring supervised person participation in:

- DRP Contracted Programs
- Non-Contracted & Community-based Treatment Programs
- Parole and Community Team (PACT) Orientation Meetings
- Lifer Peer Reentry Navigation Network (PRNN)
- Women Empowerment Support Group (WE)

DRP Contracted Programs

Division of Rehabilitative Programs (DRP) has established contracts with specific programs statewide to address a supervised person's criminogenic needs. Your parole agent will know if these programs and resources are available in your area and will be able to refer you to them if they are.

Non-Contracted or Community-based Treatment Programs

Non-contracted or "Community–based treatment programs" are programs in the community that will address a supervised person's criminogenic needs.

- Alcohol Anonymous Classes
- Narcotic Anonymous Classes
- Residential Drug Treatment
- Employments Services, etc.

Parole and Community Team

The Parole and Community Team (PACT) creates partnerships with local law enforcement agencies, community resource providers, and social service agencies in an effort to reduce crime and improve a supervised person's access to needed services in the community.

If it is available in your area, you will be instructed to attend the mandatory PACT meeting shortly after you are released. While the meeting is mandatory for newly released supervised persons, any supervised person needing additional resources is welcome to participate. Your participation at the PACT orientation meeting will allow you to engage in community-based programming and will provide you with opportunity to learn about, contact, and enroll in available community programs. DAPO provides supervised persons with timely information about community resources and required programming, which improves public safety and

promotes successful reintegration into the community. Upon request, you will be provided with a PACT Resource Brochure, which lists contact information for the service providers in your area of supervision. For the latest fiscal year schedule please click here.

Peer Re-Entry Navigation Network Program

The Peer Reentry Navigation Network (PRNN) is a program specifically for formally incarcerated long-term offenders who have been found suitable for release by the Board of Parole Hearings. Being released back into the community after many years of incarceration presents numerous challenges that the PRNN will address including reintegration and transitional topic discussions, finding access to housing, exploring employment opportunities and reuniting with family and friends. Equally important, the group provides a support system of peers who have also experienced the impact of long-term incarceration. Additionally, the PRNN hosts parole professionals who specialize in serving long-term offenders as well as community partners who provide resource services and support. Parole facilitates the PRNN meetings each month throughout the State. Contact your parole agent for information about the Peer Reentry Navigation Network Program. For the latest fiscal year schedule please click here.

Women Empowerment Support Group

The Women Empowerment (WE) Support Group provides support, assistance, and guidance to women on parole supervision who are adapting to the day-to-day challenges, while striving toward successful community reintegration. Parole facilitates the WE meetings each month throughout the State. Contact your parole agent for information about this program. For the latest fiscal year schedule please click here.

Females Achieving Change Together

The Females Achieving Change Together (FACT) meetings represent the DAPO commitment to creating programs and supervision strategies aimed to reduce female recidivism. The program was created in 2014 by the Northern Region Programs Team in Fresno. Since then, FACT has spread to Sacramento and San Francisco (SF). The specialized female supervised person program was created to focus on the needs of females upon reentry. Many female offenders have suffered physical, emotional, and sexual abuse that create unique challenges for females to reintegrate back into society. Each area event offers reentry resources to female supervised persons focusing on gender-responsive solutions to help them thrive in society and reduce the likelihood of going back to jail or prison.
