TEXT OF ADOPTED REGULATIONS

Chapter 1. Rules and Regulations of Adult Operations and Programs

Article 1. Behavior

3000. Definitions.

Section 3000 is amended to alphabetically merge the definitions below with existing definitions in this section, and amended to read:

* Automated Needs Assessment Tool means a systematic process which consists of a series of questions and a review of the inmate's criminal data in order to establish a baseline for the offender's criminogenic needs to assist in determining appropriate placement in a Rehabilitative Program.

* Cognitive Behavioral Interventions (CBI) are evidence based interventions which help inmates understand the thoughts and feelings that influence behaviors. CBI are generally short-term and focused on helping inmates deal with a specific problem. During the course of treatment, inmates learn how to identify and change thought patterns which have a negative influence on behavior.

* Health Care Services has the same meaning as defined in section 3999.98.

* Integrated Substance Use Disorder Treatment (ISUDT) is a comprehensive set of services involving substance use disorder screening, assessment, and medication assisted treatment; Cognitive Behavioral Interventions (CBI); community transitions; and supportive housing.

* Rehabilitative Programs are programs managed by the Division of Rehabilitative Programs (DRP), to equip inmates with career opportunities, and to assist them in dealing effectively with the challenges of life, in preparation for successful reintegration into the community.
