¹ The "Non-Level-Specific Beds" category is composed of 41 different bed types such as Protective Housing Unit, Security Housing Unit, Administrative Segregation Unit, and medical beds. From April 2016 forward, the non-level-specific beds total includes Community Rehabilitative Program Placements, which is comprised of Alternative Custody Program, medical parole, Custody to Community Treatment Reentry Program, and Male Community Reentry Program beds.

² The "Contract and Leased Beds" total does not include females because they are only included in the "Female Beds" category.

¹ Prior to August 31, 2018, Offender Data Points used Correctional Clinical Case Management System, Enhanced Outpatient Program, Mental Health Crisis Bed, Psychiatric Services Unit, and the combined Department of State Hospitals and Psychiatric Inpatient Program total (which included Intermediate Care Facility, and Acute Psychiatric Program) to calculate the sum of the mental health population. The mental health population is now calculated by using the sum of five level of care categories, which are Correctional Clinical Case Management System, Enhanced Outpatient Program, Mental Health Crisis Bed, Intermediate Care Facility, and Acute Psychiatric Program. The Psychiatric Services Unit, Department of State Hospitals and Psychiatric Inpatient Program totals are still included in the total mental health population, but are not listed as individual categories.

19.0: Glossary

California Static Risk Assessment (CSRA) – A tool that utilizes an offender’s demographic and criminal history data to predict their risk of recidivating upon release from CDCR. Offenders are categorized as having a low, moderate, or high risk to reoffend.

Caseload Supervision – Parole officers supervise parolees based on specific categories, such as sex offenders, mental health cases, deportation cases, etc. Because each of these categories requires a different amount of supervision time, ratios have been determined to provide the best possible scenario for keeping track of these parolees. The more serious or higher priority cases require more supervision, thus, requiring the Parole agent to keep in closer contact with that group than some of the less serious cases.

Compassionate Release – A process by which inmates in criminal justice systems may be eligible for immediate early release on grounds of particularly extraordinary or compelling circumstances which could not reasonably have been foreseen by the court at the time of sentencing.

Correctional Clinical Case Management System (CCCMS) – A system utilized by the California Department of Corrections and Rehabilitation (CDCR) that facilitates mental health care by linking inmates to needed services.

Department of State Hospitals (DSH) – CDCR works in conjunction with the California Department of State Hospitals to provide acute and long-term intermediate inpatient mental health care to inmate-patients.

Determinate Sentencing Law (DSL) – Effective July 1, 1977, this law provides for a sentence of confinement for a fixed time period that is specified by statute.

Enhanced Outpatient Program (EOP) – A program that provides care to mentally disordered inmate-patients who would benefit from the structure of a therapeutic environment that is less restrictive than inpatient settings.

Offender Based Information System (OBIS) – In 1976, the Offender Based Information System was created to track offender movements and status from reception through discharge. OBIS was replaced by the Strategic Offender Management System in 2012/2013.

Penal Code – The California Penal Code is a set of laws relating to crimes and punishments for crimes in the state of California.

Post Release Community Supervision (PRCS) – Under Public Safety Realignment, offenders with current (irrespective of priors) non-violent, non-serious offenses, and non-high-risk sex registrants will be discharged to post-release community supervision by county probation officers rather than state parole supervision.

Proposition 36 – A proposition that revised the Three Strikes Law to impose a life sentence only when a new felony conviction is serious or violent. It authorized re-sentencing for offenders currently serving life sentences if the third strike conviction was not serious or violent and a judge determined the sentence does not pose unreasonable risk to public safety. It continues to impose a life sentence penalty if the third strike conviction was for certain non-serious, non-violent sex or drug offenses or involved firearm possession. It maintains a life sentence penalty for felons with a non-serious, non-violent third strike if prior convictions were for rape, murder, or child molestation.

Proposition 47 – Proposition 47, enacted in November 2014, reclassifies non-serious, non-violent crimes from felonies to misdemeanors provided the perpetrator or defendant does not have previous convictions for violent crimes or certain sex offenses. Since Proposition 47 was enacted into law, approximately 10,000 offenders in prison or on parole have been eligible for resentencing. Cost-savings resulting from the reduction in the prison population due to the proposition are to be distributed to the Safe Neighborhood and Schools Fund to enhance educational, victims' compensation, and correctional programs. Proposition 47 is also known as Reduced Penalties for some Crimes Initiative and the Safe Neighborhoods and Schools Act.

Second Striker –An inmate who has one prior serious or violent felony conviction pled and proven in court and who is convicted of any new offense, which results in the new term being doubled.

Serious/Violent – Serious, as defined in Penal Code (PC) 1192.7(c) and 1192.8; and Violent, as defined in PC 667.5(c).

Strategic Offender Management System (SOMS) – CDCR's current database which automates intake, movements, counts, and scheduling processes. This database includes data converted from legacy systems like Offender Based Information System and the Distributed Data Processing System.

Third Striker – An inmate who has two or more prior serious or violent convictions pled and proven in court and who is convicted of another offense, which results in the term being at least 25 years to life.
