Research Overview

Background

Provide an overview of the research topic, including its historical development, current trends, and significance in the field. Discuss existing studies and highlight their contributions to the subject.

Research Problem

Clearly articulate the research problem. Identify the gap in current knowledge or practice that your study aims to address. Explain why this issue is significant and worth exploring.

Research Objectives

State the specific objectives of the study. The objectives must be specific, measurable, achievable, relevant, and time-bound (SMART). The objectives should be directly addressing the research problem and align with the proposed methodology.

Research Questions and Hypotheses

Clearly define the central questions the study aims to address and state the hypotheses that provide a clear prediction or expected outcome based on the research questions. Ensure questions are specific and hypotheses are measurable, concise, and directly related to the study.

Research Significance

Describe the significance of the research and discuss the practical applications of the study and the potential impact on CDCR. Provide specific examples of how the findings may influence future research, policy, or practices.

Research Methodology

Research Design

Describe the overall design of the study (e.g. case study, survey, experimental) and explain why this approach is appropriate for addressing your research questions.

Data Collection Methods

Explain the data collection methods to be used and justify the choice. Include details on the tools, instruments, and data resources the study will use to gather the necessary information.

CDCR Data Sources

Select from the list provided the necessary CDCR resources needed to conduct the study.

- CDCR Data
- CDCR Adult Institutions
- CDCR Incarcerated People
- CDCR Youth Facilities
- CDCR Staff
- Other, *please specify*

Target Population

Select the target population from the list provided.

- Adult Incarcerated People
- Parolees
- Adult Incarcerated People Staff-Correctional Officers
- Adult Incarcerated People Staff-Administrative
- Adult Incarcerated People Staff-Executive
- Other, *please specify*

Population Sample

Identify the sample size needed to meet the scientific aim(s) of the research. Describe any criteria for inclusion and exclusion and explain in detail the recruiting procedure.

[Empty text area for Population Sample description]

Implementation Procedures

Explain in detail the step-by-step process of how the research will be carried out.

Data Analysis Techniques

Explain how the study will analyze the collected data. Specify the analysis methods and tools you will use and justify why these are the best choice for the research.

Ethical Considerations

Describe any ethical considerations in the study. Discuss how you will ensure the protection of participants' rights and confidentiality.

Conflict of Interest Disclosure

Does your proposed research involve any potential conflict of interest with CDCR, including but not limited to:

- 1- Financial interests.
- 2- Personal relationships.
- 3- Professional commitment that would compromise the integrity or objectivity of the research.

Yes

No

If you answered "Yes", please provide details below.

Research Deliverables

Expected Outcomes

Describe what you anticipate discovering or confirming through the research. Clarify the expected results and discuss the implications of your findings, including potential applications in practice or policy.

Research Product(s)

Select from the list of categories of end products that will be produced from the study provided. If the end product is not listed, select "Other", and describe the end product in the space provided.

- Government Research Report
- Non-Government Research Report
- Peer Reviewed Manuscript
- Master's Thesis
- Ph.D. Dissertation
- Conference Presentation
- Book
- Discussion Paper
- Poster Presentation
- Press Release
- Internet Posting
- Other, please specify
